

Addition To 10.Pdf

Learn step by step with clear examples.

Example:

$$2 + 3 = 5$$

Practice

1 $1 + 2 = \blacksquare$

2 $2 + 3 = \blacksquare$

3 $3 + 4 = \blacksquare$

4 $4 + 5 = \blacksquare$

5 $5 + 1 = \blacksquare$

6 $6 + 2 = \blacksquare$

7 $7 + 3 = \blacksquare$

8 $8 + 4 = \blacksquare$

9 $9 + 5 = \blacksquare$

10 $10 + 1 = \blacksquare$

11 $11 + 2 = \blacksquare$

12 $12 + 3 = \blacksquare$

13 $13 + 4 = \blacksquare$

14 $14 + 5 = \blacksquare$

15 $15 + 1 = \blacksquare$

16 $16 + 2 = \blacksquare$

17 $17 + 3 = \blacksquare$

18 $18 + 4 = \blacksquare$

19 $19 + 5 = \blacksquare$

20 $20 + 1 = \blacksquare$

Challenge

1 $1 + \blacksquare = 4$

2 $2 + \blacksquare = 5$

3 $3 + \blacksquare = 6$

4 $4 + \blacksquare = 7$

5 $5 + \blacksquare = 8$

6 $6 + \blacksquare = 9$

Word Problems:

- 1 Ana has 2 apples and gets 3 more. How many?
- 2 Marko has 4 candies and gets 2 more. How many?
- 3 Sara has 5 balloons and gets 1 more. How many?
